Hi, I have found, that the configuration of the demo Genetica Viewer version: Genetica Viewer Demo is not changed, after update to 1.16.0, If You did not - the notice, that new version and updated version do not coincide. Please change it back Thank you, very good software, I download the Genetica viewer, I can feel its flexibility that make the rendering easy. I decided that I will work on a demo, and I was very pleased because I found such a beautiful background image, I want to share it with all of you, it is a beautiful Japanese forest. Hi, I have found, that the configuration of the demo Genetica Viewer version: Genetica Viewer Demo is not changed, after update to 1.16.0, If You did not - the notice, that new version and updated version do not coincide. Please change it back Thank you, very good software, I download the Genetica viewer, I can feel its flexibility that make the rendering easy. I decided that I will work on a demo, and I was very pleased because I found such a beautiful background image, I want to share it with all of you, it is a beautiful Japanese forest. I have been playing with Genetica for a while, and I'm pleased with the results, It's not too easy for a beginner, but it's worth it. I used to work with Photoshop, and I just need a small project to refine a little the workflow. I recently bought Genetica for the first time (had played with it for a few months), and I'm hooked. I mainly use it for portraits, headshots and kid portraits. It's very easy and intuitive to get the hang of, and I think my results are very good. It's definitely a very powerful tool. I'm using Version 1.1.0. My machine: i7-5500U @ 3.5 Ghz 8 GB Memory NVIDIA GeForce 920M @ 2GB RAM Hope you enjoy my work. Thanks Comment Shame
